Maintenance of propane piping **downstream of the meter** is the responsibility of the **property owner or occupant**.

KNOW THE SMELL OF PROPANE

👉 Propane smells like:

- Rotten eggs
- Skunk spray
- Dead animal

Some individuals may have reduced smell sensitivity. **Install propane gas detectors** for added protection.

Questions/Comments: 701-751-1661

IF YOU SMELL GAS

1. No Flames or Sparks

Do not operate lights, appliances, phones, or electronics.

2. Leave Immediately

Evacuate the building or area.

3. Shut Off Gas (If Safe)

Turn the main valve **clockwise**.

4. Report the Leak

From a safe location:

- Call 911 or Abaco at 800-474-3850

5. Do Not Return

Only re-enter when cleared by a qualified technician.

6. Full System Check Required

A technician must inspect the entire propane system before use.

SOUND OF HISSING GAS: May indicate gas escaping from a component of propane pipes or appliances.

Unusual and unexpected usage of propane, may be due to a leak. Other items to mitigate propane usage:

- Monitor thermostat settings
- Be aware of outside temperature changes
- Close doors and windows
- Check propane appliances annually

Emergency: 1-800-474-3850
